TECH WITH ACHIEVERS (TWA)

Making Tech Simple, Accessible, and Achievable.

We help Africans at home and in the diaspora build high-demand tech skills, transition into global careers, and achieve better earning opportunities – no matter their background or experience.

OUR STORY

Tech With Achievers started with one simple idea: tech should be easy to understand. What began with our founder helping classmates and lecturers in college soon grew into guiding busy professionals in the UK, US, and Africa. From a few lessons to a growing mission, we now make tech clear, personal, and practical for anyone ready to grow. Today, we help people build skills, gain confidence, and unlock better job and earning opportunities.

If you're ready to grow, switch careers, or finally feel at home in tech, welcome to the TWA family.

We provide personalized training and mentorship designed to meet learners where they @re, and guide them to where they want to be in tech areas such as:

CYBERSECURITY
Protect digital assets in a fast-changing world.

CLOUD ENGINEERING & SECURITY
Master AWS, Azure, and GCP for global careers.

DEVOPS & DATA ENGINEERING
Learn automation and collaboration skills for high-demand roles.

OUR STRUCTURE

- 1-on-1 private classes (tailored to your schedule and level)
- Public bootcamps (affordable and accessible for beginners)
- Career mentorship & coaching
- Internship programs for undergraduates in Africa

WHO WE SERVE

We specialize in guiding:

- Africans in the Diaspora (UK & US) looking to transition or upskill for better opportunities.
- Career Changers & Beginners who want a clear, structured entry into tech.
- Businesses & Organizations seeking to upskill their teams with in-demand tech skills.
- Undergraduate Learners in Africa seeking real-world experience and certifications.

WHY TECH WITH ACHIEVERS?

- Simplified learning – Tech made easy with relatable examples.
- Personalized support – 1-on-1 classes + structured accountability.
- Flexible options – Private trainings, group bootcamps, and internships.
- Community & partnerships – Growing through collaboration.
- Proven results – Learners across Africa and the diaspora achieving career success.

⭐ WHAT OUR LEARNERS SAY

"Being mentored by Fredrick Achiever was one of the most transformative experiences of my Cloud Engineering journey. He took me from complete beginner to intermediate, breaking down complex tools like AWS, Docker, Kubernetes, and CI/CD into simple, practical lessons. The hands-on labs, real-world projects, and constant encouragement gave me both skills and confidence. If you're serious about starting a tech career, Tech With Achievers is the place to be."

– Okeke Victor KC   (Cloud Engineering)

⭐ WHAT OUR LEARNERS SAY

"I recently completed the 10-week Cybersecurity Bootcamp by Tech With Achievers and it was a truly rewarding experience. The program covered everything from network security and AWS to threat analysis and incident response, with a strong mix of theory and hands-on labs. The instructors were supportive, the resources practical, and the projects made the learning real. By the end, I not only built confidence in cybersecurity fundamentals but also felt prepared to pursue my CompTIA Security+ certification. I highly recommend this bootcamp to beginners or career changers looking to start their cybersecurity journey."

– Calistus Chinwike   (Cybersecurity)

⭐ WHAT OUR LEARNERS SAY

"Fredrick's mentorship made DevOps simple and practical. From Docker and Kubernetes to CI/CD and real-world projects, he explained complex topics in a clear way and guided me with patience and support. The hands-on labs and feedback boosted my confidence and skills. I highly recommend Tech With Achievers to anyone serious about DevOps or Cybersecurity."

– Saidat A Gaji   (DevOps)
